

# Tru-Weight Bow Scale

Designed for the demanding conditions of professional archery, the **Tru-Weight Bow Scale** gives consistent and accurate draw weights to any bow design up to 90 lbs. High manufacturing tolerances are the secret to accurate readings. Each scale is hand calibrated at the factory by experienced craftspeople who are archery enthusiasts.

The **Tru-Weight Bow Scale** is easy to operate by either right or left-handed shooters. The tattle-tale indicator and unique no-slip hook design allows the user to focus on a smooth draw which increases safety. The small, compact size

(11" overall) is easily stored with your gear.

The **Tru-Weight Bow Scale** is fully warranted by Feather River Sports for the life of the product.

Available packaging consists of vacuum forming over a heavy weight 24pt. backing board. User instructions are printed on the reverse side of the packaging.
