

Ragim®

INNOVATING ARCHERY TRADITION

MADE IN ITALY

## About Us

Ragim is an Italian Company that has been in the archery industry for over 20 years and it is going on to leave its sign, through constant development and reinforcement of the commercial and productive network, into international market of bows. Ragim is always present into the archery market with a wide range of products that go from beginner to traditional bows, from Olympic to historical bows.

Accurate studies and constant researches, along with decennial experience in the field of traditional bow making, allowed Ragim to obtain products with high level performance but at an accessible price for all archers... from professionals to families who have an interest in a fun sport with full respect for Nature. Eager to get better and grow continuously, our company has improved through innovative, automated and robotized production systems and quality tests that permit us to produce our bows with constant Quality. Thanks to these investments, we are proud to offer to our Customers bows with the known High Quality of Made in Italy at a competitive price compared to competition. All our products in design and production status follow the rules ISO 9001 and ISO 14001 certifications. Thanks to the strong desire for constant improvement, in giving always something more to our customers, Ragim has recently

UNI EN ISO  
9001:2000

renovated some of their traditional and hunting bows with the new range "TOP Class"

RAGIM invites all of its Customers to try all products and the professionalism of a well-established Company in the international market of bows.

## Development and Promotion

*Since years Ragim is committed to develop the knowledge of archery in the young level as an alternative sport to the most famous. We work and support the Italian Archery Federation with a program to introduce the sport of archery in the schools. We believe that the knowledge of this sport in young world would obtain the result to have more Olympic Champions in the future. We would be able to support all the World Federations that has the purpose to promote this sport in young level.*

Bows for people who wants to start shooting and for those who wants to have fun with a simple but complete bow.

TRADITIONAL AND HUNTING BOWS

## Mongolian

Reflex bow, well known as Mongolian bow, as a fitting tribute to the people who used it over time. The main feature for this bow is the string and the stool puted on the limbs, with their angled shape that modifies arm action with respect for the string. Tools are held together with the central body through a bendage and glued carefully. The rigid and falling handle doesn't take part to the flex, but reduces the height of the string.

Length	Weights	Ordering Info
60"	From 25 to 50# increments 5 lbs	06MMD60___ (RH) 06MMS60___ (LH)

TOP CLASS BOWS

## Antelope

Antelope is a wonderful take down bow with classic shape. The central body has a rounded design that fits easy the hand of every archer and the window slightly curved permits to apply the hair rest, or use the arrow without anything. The colours are very nice and in the production are used high quality woods such as padouk, hard maple and walnut, that gives to this bow the best aesthetic look. Limbs are made in clear fiberglass combined with hard maple wood.
